NAIROBI, KENYA

PROFESSIONAL SUMMARY

Junior Full Stack Developer with 3+ years' experience in developing applications using JavaScript's React framework with Next.js and React Native. Proven team leadership and team collaboration in delivering 3 impactful projects that consider professionalism and human computer interaction principals to improve user experience.

SKILLS & ABILITIES

Languages: Java, Python, JavaScript, TypeScript

Frontend: React, Next.js, HTML 5, CSS, Tailwind

Backend: Node.js, Supabase, Firebase, REST APIs, Prisma ORM

Database: MySQL, PostgreSQL

Mobile: React Native

DevOps: Git, GitHub, Docker, Agile

EXPERIENCE

2025-PRESENT

Independent Full Stack Developer (Contract-Based) | Nairobi, Kenya

TrustLoop -Fintech Mobile Application | Nov 2025 – Feb 2026

- Worked with a team of five peer developers to come up with a fintech application using React Native and Supabase.
- Architected the accounting subsystem's backend for the application that guaranteed 100% ledger accuracy.
- Enforced immutability and ledger consistency (double ledger entry mechanism) to ensure financial integrity and traceability for the platform's financial transactions.

Armour Orphanage ERP | Aug 2025 – Oct 2025

- Led a peer development team of four in building a comprehensive orphanage management system.
- Designed a normalized backend using Prisma ORM with MySQL.
- Automated adoption process and implemented a follow up mechanism for each adoption made this reduced the time taken to successfully complete an adoption process by 50%.

Kenyan Lutheran Services Website | May 2025 -July 2025

- Teamed up with a peer developer to transform an existing word press site into a tailored Next.js site.
- Implemented Clerk as an authentication service for subscribed users and contributed toward developing the admin dashboard to

manage user articles. This streamlined article review by reducing time taken to review and approve an article by 60%.

2025

Tutor

- Tutor for I-Tech Solutions College, Kimilili from January 2025 to February 2025.
- Taught first-time learners to build their confidence and foundational skills in programming.

2024

Intern -Web Developer (Attachment Program)

- Attached at Bungoma County Ministry of Finance and Economic Planning office from May 2024 to July 2024.
- Developed a web-based file management system that facilitated document sharing, online storage and controlled access in the revenue department.

2023-2024

Assistant Teacher

- Volunteered to teach programming concepts and practical coding using Visual Basic to St. Josephs' high school students.
- Improved the students' performance in computer studies.

EDUCATION

2021-2025

Bachelor of Science in Computer Science

Masinde Muliro University of Science and Technology ,2025

2017 -2020

Kenya Certificate of Secondary Education.

Chesamisi High School, 2020

PROJECT

Machine Learning Powered Desktop Assistant (Windows 10) | Python, YOLO, OpenCV, OpenAI API, Roboflow, GoogleColab

Acted as team leader in training a YOLO model on Windows 10 GUI screenshots of icons, windows and menus. The model was trained to recognize windows features and actively manipulate the user's desktop using Python PyAutoGUI library by perform operations such as cursor movement and keyboard input actions. The model proved to be 50% accurate in recognizing items trained on. I integrated OpenAI API for natural language processing.
