PROFESSIONAL SUMMARY

- **Full stack Developer** specialized in **React, Next.js and react Native** to build scalable, high-performance web and mobile applications. Proven track record of developing real world systems, including fintech platforms and organizational ERP's, with a focus on clean UI and robust backend integration. Passionate about leveraging **TypeScript, Prisma and PostgreSQL** to deliver impactful digital solutions.

TECHNICAL SKILLS

- Languages: TypeScript, JavaScript, SQL.
- Frontend: React.js, Next.js (App Router), React Native, Tailwind CSS, ShadCN UI.
- Backend: Node.js, Express.js, REST APIs, Prisma ORM, tRPC.
- Databases: PostgreSQL, MySQL.
- Tools: Git/GitHub, Docker, Vercel, Hostinger, Figma.

TECHNICAL EXPERIENCE

Technical Support & ICT Operations | Kenya Rural Roads Authority (KeRRA) | May 2024 – July 2024

- Optimized internal workflows by troubleshooting hardware and software issues within a high-stakes governmental environment.
- Managed technical documentation and provided end-user support to ensure seamless operation of internal management systems.
- Collaborated with cross-functional teams to maintain systems uptime and support digital infrastructure for organizational efficiency.

KEY PROJECTS

KENYAN LUTHERAN SERVICES Website | Next.js, Clerk, Prisma, MySQL

- Launched and led a team of two tasked to make improvements to an existing word press site, to a tailored Next.js site.

- Enhanced site accessibility and SEO, resulting in a modern, responsive user experience for stakeholders

ARMOUR Orphanage ERP | Next.js, Prisma, MySQL, PWA

- Joined a peer development team of four in building a comprehensive orphanage management system for handling children, staff, inventory, adoptions, donors, donations, finances, backups, communication reports and documents and delivered a Progressive Web Application for offline access in low connectivity environments and running on local area network.

TRUSTLOOP- ROSCAs Fintech Mobile App | React Native /Expo, Supabase, OpenAI API

- Joined a team of five to come up with a cross-platform mobile application using React Native enabling users to manage their finances digitally and form saving groups (ROSCAs)
- Integrating AI-driven modules for fraud detection and credit scoring to enhance financial security and user trust.

Aora (AI Content Sharing Platform) | React Native, Mobile-First Design

- **Designed** a mobile application for sharing AI-generated media, implementing an intuitive feed system almost similar to Instagram.
- **Focused** on high-performance image/video rendering and mobile-first UI responsiveness.

Student ERP System | React, TypeScript, Role-Based Access

- Building a comprehensive school management system featuring role-based modules for administrators, teachers, and students.

EDUCATION

- **Bachelor Of Science in Computer Science | Masinde Muliro University | 2021 – 2025**
- **Kenya Certificate of Secondary Education | Mbita High School | 2017 - 2020**
